

POWER TRANSFORMER TESTING SEMINAR PROVISIONAL PROGRAMME

11 NOVEMBER 2026

07:00	08:00	Registration & Networking
08:00	08:30	Welcome, Introduction and Safety Briefing
08:30	09:00	Transformer Testing and Diagnostics: Interesting Case Studies, Part 1
09:00	09:40	Transformer Testing and Diagnostics: Interesting Case Studies, Part 2
09:40	10:00	Power Transformer Testing with the CPX 200
10:00	10:30	Networking Break
10:30	11:00	Transformer Insulation Health Assessment using the CPX 200 and HVX
11:00	11:30	On Load Tap Changers and Special Transformer Applications
11:30	12:00	Power Transformer Testing with the TESTRANO 600
12:00	12:30	Vibroacoustic Measurements on Power Transformer OLTCs
12:30	13:00	CPXpert, Primary Test Manager and Cortex Grid
13:00	14:00	Lunch Break
14:00	15:00	Practical Session 1: Transformer Insulation Health Assessment
15:00	15:30	Networking Break
15:30	16:30	Practical Session 2: Vibroacoustic Measurements on a Power Transformer OLTC
16:30	16:45	Final Questions and Key Conclusions
16:45	17:00	Closing Remarks
17:00	20:00	Networking Event and Drinks
